In the Matter of **Garden Valley Telephone Company's** Request for Approval of Certified Actual Costs Associated with the **Polk County** 911 Emergency Telephone Services System

ISSUE DATE: November 17, 2000

DOCKET NO. **P409/ES-00-1496**

ORDER APPROVING CERTIFIED 911
SYSTEM COSTS

BACKGROUND

On April 24, 1984, the Minnesota Public Utilities Commission (the Commission) approved Polk County's final plan for the establishment of a 911 Emergency Services system.

On September 17, 1987, the Commission approved actual costs incurred by Northwestern Bell Telephone Company for nonrecurring capital costs of central office rearrangement and main stations in the Crookston, Byglund, Climax, Fisher, Neilsville, Beltrami, Erskine, Fertile, Fosston, Lengby, Mentor, Winger, Gully, East Grand Forks, and Mable Bay Exchanges for a portion of the 911 Emergency Services system in Polk County.

On March 22, 1988, the Commission approved actual costs incurred by Garden Valley Telephone Company for capital costs for 911 central office equipment, and monthly recurring costs for 911 outswitching trunks and interexchange circuits to the Beltrami, Fertile, Maple Bay, Mentor, Winger, Erskine, Fosston and Gully Exchanges for a portion of the 911 Emergency Services system in Polk County.

On February 8, 1989, the Commission approved actual costs incurred by Halstad Telephone Company for capital costs for 911 central office equipment, and monthly recurring costs for 911 Outswitching trunks and interexchange circuits for the Bygland, Fisher, Climax and Nielsville Exchanges for a portion of the 911 Emergency Services system in Polk County.

On November 22, 1989, the Commission approved actual costs incurred by Halstad Telephone Company for monthly recurring costs for 911 outswitching trunks and interexchange circuits to the Bygland, Fisher, Climax, and Nielsville Exchanges for a portion of the 911 Emergency Services system in Polk County.

On October 24, 2000, the Commission approved actual costs incurred by Independent Emergency Services, LLC (IES) for trunk ports from all of the Polk County Exchanges to the Erskine Selective Router for Automatic Number Identification (ANI) and Automatic Location

Identification (ALI) services. IES also established ALI records and databases from all of the Exchanges in Polk County and installed ALI database ports to Public Safety Answering Points (PSAPs) from the Crookston to the Hutchinson and Annadale Exchanges.

CURRENT FILING

The Commission has accepted Polk County's 911 Emergency Services request to change from Qwest Corporation to IES as their enhanced 911 Service Provider. Polk County contracted with Garden Valley Telephone Company (the Company) to install router services and ANI for their Exchanges in the 911 Emergency Service system in Polk system.

On September 26, 2000, the Company installed outswitch trunks, and interexchange circuits from the Beltrami, Bygland, Climax, Crookston, Erskine, Fertile, Fisher, Fosston, East Grand Forks, Gully, Lengby, Maple Bay, McIntosh, Mentor, Nielsville, and Winger Exchanges to the Erskine Router. The Company also installed interexchange circuits from Erskine to the Crookston PSAP and from Erskine to the Turtle River Exchanges.

On September 26, 2000, the Company installed 7207 access lines for ALI services to the Beltrami, Erskine, Fertile, Fosston, Gully, Lengby, Maple Bay, McIntosh, Mentor and Winger Exchanges.

On October 16, 2000, the Company certified actual costs for installing the trunks and interexchange circuits to provide ALI serviced for their Exchanges in the Polk County 911 Emergency Services system.

On October 24, 2000, the Company certified actual costs for installing 7207 access lines for ALI service for their Exchanges in Polk County.

The Company is now requesting Commission approval of the actual interexchange circuits and access lines installed for their portion of ALI in 911 Emergency Services system in Polk County. Commission approval is necessary before the Department of Administration (DOA) will make payments for 911 system costs.

FINDINGS AND CONCLUSIONS

Minn. Stat. Section 403.11, subd. 3 states:

Subd. 3 (METHOD OF PAYMENT; CERTIFICATION.) A public utility incurring reimbursable costs under subdivision 1 or 2 shall certify those costs to the commissioner of administration. The certification shall be in a form as prescribed by the commissioner after consultation with the public utilities commission. If the commissioner and the commission approve the certified costs as appropriate and accurate, the commissioner shall pay the certified costs from money appropriated for that purpose within 90 days following receipt by the commissioner of the certified costs. The commissioner of administration shall estimate the amount required to reimburse public utilities for the state's obligations under subdivisions 1 and 2 of this

section and the governor shall include the estimated amount in the biennial budget request.

Garden Valley Telephone Company has certified, in writing, that the elements of 911 services and associated costs indicated on Attachment A, reflect only charges for services actually rendered in the direct provision of 911 service in Polk County.

All charges listed on Attachment A are in accordance with the Company's tariffs.

The Commission finds that the costs for 911 Emergency Telephone Service in Polk County which have been certified by the Company are appropriate and accurate.

ORDER

1. The costs identified on Attachment A accompanying this Order are approved as appropriate and accurate pursuant to the Commission's March 21, 2000 Standing Order Designating Filings Requesting Certification of 911 Costs As Filings Subject to Approval Under Minn. Stat. § 216A.03, Subd. 7, Docket No. P-999/CI-99-1723.
2. This Order does not approve payment of any 911 system costs. Any possible future approval of payment for system costs shall be granted by the Commissioner of the Department of Administration in accordance with the provisions of Minn. Stat. Section 403.11.
3. This Order shall become effective immediately.
